

Emerging Gene Therapy Strategies – Challenges, Risks and Potential for Cure

Friday, November 9, 2018

4:15 p.m. – 5:15 p.m.

Speakers

Mark Walters, Director Children's Hospital of Oakland BMT Program;
Sun-Yun Pai, Associate Professor, Harvard Medical School and
Associate Director of the Gene Therapy Program

Session Objectives

At the conclusion of this session, attendees will be able to:

1. Define diseases that have the potential to be treated using gene therapy strategies.
2. Analyze current strategies and methodologies such as CRISPR and viral vectors being used in gene therapy.
3. Evaluate how these gene therapy strategies are being applied in current clinical trials.

Conflict of Interest/Financial Disclosure

The planners and speaker(s) have disclosed the following financial relationships and/or conflicts of interest:

Mark Walters	Bluebird bio, inc, Stipend, Consultant
