STANDARD OPERATING PROCEDURE

OBJECTIVE/SCOPE
To ensure that National Marrow Donor Program (NMDP) Institutional Review Board (IRB) members, applicable NMDP/Be The Match employees, applicable NMDP/Be The Match Network staff, and external investigators and research staff are appropriately trained in human subjects protection.

RESPONSIBILITIES
1. **CIBMTR Prospective Research Group**
   - Monitor human research protection training requirements of NMDP/Be The Match Network staff, as applicable
   - Inform NMDP/Be The Match Network staff of their human research protection training requirements, as applicable

2. **NMDP Education & Training Department**
   - Monitor human research protection training requirements of NMDP/Be The Match employees, as applicable
   - Inform NMDP/Be The Match employees of their human research protection training requirements, as applicable

3. **NMDP IRB Staff**
   - Monitor human research protection training requirements of NMDP IRB members and those required to complete Department of Navy (DON) education requirements
   - Inform NMDP IRB members and those required to complete DON education requirements of their human research protection training requirements
PROCEDURE

1. **Orientation of new IRB members**
   1.1. All newly appointed IRB members must meet minimal training requirements prior to functioning as a voting member of the IRB. Refer to Attachment #: A00319, NMDP Education Program for the Protection of Human Research Participants for these requirements.

2. **Training and continuing education of IRB members**
   2.1. Frequency
      2.1.1. NMDP IRB members must participate in continuing education requirements. Refer to the NMDP Education Program for the Protection of Human Research Participants (Attachment #: A00319) for these requirements. Additional training may be performed periodically as new regulations or guidances are issued.
      2.1.2. Additional training may be performed at the discretion of the NMDP IRB Administrator, the NMDP Institutional Official, the NMDP Organizational Official, or the NMDP IRB Chair.
      2.1.3. Other continuing education opportunities will be communicated to the IRB as they arise.

   2.2. Training methods may include, but are not limited to, the following:
      2.2.1. Reading: Review of procedures, policies or other written materials that are applicable to carrying out responsibilities of the NMDP IRB.
      2.2.2. Lecture: Verbal instruction presented in a lecture format that may or may not include audio-visual materials.
      2.2.3. Discussion: Formal or informal group that allows the trainer and trainees to exchange information, discuss concepts, ask questions, and clarify information.
      2.2.4. Visual: Training method in which videos, computer-generated tutorials, diagrams, or other visual materials are used with or without the accompanying audio materials.
      2.2.5. Audio: Training method in which audio materials (e.g., tapes, CDs) are used with or without accompanying visual materials.

3. **Orientation and training of IRB staff**
   3.1. NMDP IRB staff must meet orientation and on-going training requirements. Refer to the NMDP Education Program for the Protection of Human Research Participants (Attachment #: A00319) for these requirements.
4. **Training of NMDP/Be The Match coordinating center staff**
   
   4.1. Coordinating center staff who are required to complete training in human subjects protection will be selected by the NMDP IRB Administrator or NMDP Organizational Official in conjunction with the NMDP/Be The Match department directors.

   4.1.1. This includes all staff who serve as an Investigator or as part of a research team.

   4.2. Refer to the NMDP Education Program for the Protection of Human Research Participants (Attachment #: A00319) for coordinating center staff training requirements.

5. **Training of Network medical directors**

   5.1. All medical directors of domestic donor centers and apheresis centers that rely on the NMDP IRB are required to complete training in human subjects protection.

   5.2. Refer to the NMDP Education Program for the Protection of Human Research Participants (Attachment #: A00319) for medical director training requirements.

6. **Training of Network staff**

   6.1. Certain staff of domestic donor centers and apheresis centers that rely on the NMDP IRB are required to complete training in human subjects protection. Refer to the NMDP Education Program for the Protection of Human Research Participants (Attachment #: A00319) for the job descriptions or titles of staff required to take the training.

   6.2. Refer to the NMDP Education Program for the Protection of Human Research Participants (Attachment #: A00319) for center staff training requirements.

7. **Training of external investigators and research staff**

   7.1. Investigators and research staff who are employed by an institution other than the NMDP/Be The Match are expected to follow the human research protection initial and continuing training requirements set forth by their own institution.

8. **Department of Navy (DON) education requirements**

   8.1. NMDP/Be The Match receives DON funding for certain research protocols. Therefore, as a DON-supported extramural performer, DON research ethics
education requirements apply to the NMDP Institutional Official, IRB Chair, and Human Research Protection Program Administrator, as well as to principal investigators of the studies supported by DON funding. (Refer to DON HRPP Training and Education Guidance)

8.2. DoD Components may evaluate the NMDP’s education policies to ensure personnel are qualified to perform the research, based on the complexity and risk of the research. (Refer to DoD Instruction 3216.02 5d)

9. Monitoring of education requirements

9.1. Human research protection training requirements of IRB members are monitored by IRB staff.

9.1.1. If an IRB member does not satisfactorily complete the orientation or continuing education requirements, the Organizational Official, with input from the IRB Administrator or Institutional Official, may dismiss the member from the IRB, withhold compensation, or take other appropriate action.

9.2. Human research protection training requirements of NMDP/Be The Match employees (including IRB staff) are monitored by the Education & Training department.

9.2.1. If an NMDP/Be The Match employee does not satisfactorily complete the training requirements, the Institutional Official, with input from the IRB Administrator and/or Organizational Official, may ask the employee to cease his/her involvement in NMDP research until the requirements are completed.

9.3. Human research protection training requirements of Network staff (other than NMDP/Be The Match employees) are monitored by the CIBMTR Prospective Research group.

9.3.1. If Network staff do not satisfactorily complete the training requirements, the Institutional Official, with input from the IRB Administrator and/or Organizational Official, may ask the Network staff person to cease his/her involvement in NMDP research until the requirements are completed.

9.4. DON human research protection training requirements pertaining to section 8 of this SOP are monitored by IRB staff.

9.5. Principal Investigators must submit proof of human research protection training along with their IRB application materials for initial review. At the time of continuing review, Principal Investigators are asked if they are in compliance with their institution’s ongoing human research protection training requirements.

9.5.1. NMDP IRB approval of initial applications will not be granted until the Principal Investigator submits proof of human research protection training.

9.5.2. Principal Investigators that are not compliant with their institution’s human research protection training requirements at the time of continuing
review must complete such requirements before NMDP IRB approval of the continuing review application is granted.

9.5.3. Principal Investigators from institutions outside of the U.S. are required to follow their own institution's human research protection training requirements. Proof of such training may not be available; however, these Principal Investigators will be asked if they are in compliance with their institution's training requirements.

9.6. Individuals required to take human research protection training will be informed of such requirements by the NMDP IRB staff (for DON education requirements), the Education & Training Department, or the CIBMTR Prospective Research Group as applicable.

10. Reference materials

10.1. Links to the Federal regulations and guidance are maintained on the NMDP/Be The Match Network website.

10.2. All NMDP IRB policies and procedures can be found in NMDP's Master Control document management system. NMDP IRB policies and procedures relevant to external investigators are located on the NMDP/Be The Match Network website.
